## **Energy Exploration International, Inc. Announces Plans to Expand Into Asia**

Thursday May 1, 9:00 am ET

DALLAS, TX--(Marketwire - May 1, 2008) - Energy Exploration International, Inc. (EEI) has announced plans to open an operations office in Asia. Last year, EEI obtained legal and accounting assistance in Australia, the UK and some EU countries to keep up-to-date and in compliance with local regulations for raising capital. In view of the success of recent drilling operations, EEI has been conducting feasibility assessments to expand our Asian markets including Singapore, Thailand and Hong Kong. An office located in Asia will also allow EEI to more effectively serve partners in both Europe and Asia. EEI expects to announce a final location in the upcoming weeks.
