

## Energy Exploration International Announces the Drill Rig is Scheduled for the Harlan #2 (Machala #1) Well

Friday May 16, 11:46 am ET

DALLAS, TEXAS – (May 16, 2008) [Energy Exploration International, Inc.](#) ("EEI") and PetroQuest Exploration Inc. announce the scheduled move-in date for the Harlan #2 Well ([Machala #1](#) project). EEI and PetroQuest have confirmed that drilling is scheduled to commence on or about the week of May 27th, 2008. The location has been cleared and prepared, the reserve pits have been dug and a work-over rig has dug the rat hole and the location hole.

Energy Exploration International Inc. is an energy exploration and development company based in Dallas, Texas, USA: [www.eei-inc.com](http://www.eei-inc.com).

### FORWARD-LOOKING STATEMENTS

This press release contains statements, which may constitute "forward-looking statements" within the meaning of the Securities Act of 1933 and the Securities Exchange Act of 1934, as amended by the Private Securities Litigation Reform Act of 1995. Those statements include statements regarding the intent, belief or current expectations of Energy Exploration International, Inc., and members of its management as well as the assumptions on which such statements are based. Prospective investors are cautioned that any such forward-looking statements are not guarantees of future performance and involve risks and uncertainties, and that actual results may differ materially from those contemplated by such forward-looking statements. Important factors currently known to management that could cause actual results to differ materially from those in forward-looking statements include fluctuation of operating results, the ability to compete successfully and the ability to complete before-mentioned transactions. The company undertakes no obligation to update or revise forward-looking statements to reflect changed assumptions, the occurrence of unanticipated events or changes to future operating results. If any investor has questions or knowledge of information that causes him or her concern, please feel free to contact Energy Exploration International, Inc.
